The Security Council... Affirms that the fulfillment of Charter principles requires the establishment of a just and lasting peace in the Middle East which should include...

Withdrawal of Israeli armed forces from territories occupied in the recent (1967) conflict.

UN Resolution 242

NOVEMBER 22, 1967

The recent outbreaks of fatal violence in the occupied territories of Palestine are only a symptom of the oppression and human rights violations that have gone on in Palestine for the past half-century under Israeli control largely because the international community, including Canada has neglected to act. Show our government, and the world that we have not forgotten.

Ours will be the voices of courage and honesty. Ours must be the voices that demand equality and peace.
