END THE VIOLENCE!

Dear Prime Minister Chretien,

The recent outbreaks of fatal violence in the occupied territories of Palestine are a symptom of the oppression and human rights violations that have gone on for the past half-century under Israeli control largely because the international community has neglected to act. I am outraged at the violations that have taken place over the past 53 years, and disappointed in both the lack of concern in the West, and the lack of meaningful response by the Canadian Government. I call upon you to put pressure on the Israeli government to comply with the U.N. resolutions it has ignored since 1967, requiring their immediate withdrawal from the West Bank, Gaza and East Jerusalem as a precursor to peace I ask Canada to be a leader in the global community, helping to bring justice and peace to all people in Palestine and Israel.
